

Monday, September 12, 2016

Posters may be posted from 8:00 to 19:00. Please remove at end of day.

	Welcome
9:15 – 9:30	Raja Mukherjee, Susan Fleisher, Diane Black, Leopold Curfs
	Plenary Session 1: Where are we now?
	Session chair: Aurelijus Veryga, Lithuania
9:30 – 10:00	[1] Keynote: Ira Chasnoff, USA
	40 years working with FASD. What has changed?
10:00 – 10:30	[2] Keynote: Elizabeth Elliott, Australia
	Fetal Alcohol Spectrum Disorder in Australia: from Fiction to Fact and to the Future
10:30 – 11:00	[3] Keynote: David Townend, Netherlands
	Legal and ethical questions posed by Fetal Alcohol Spectrum Disorder (FASD): responsibility, participation, and framing the debate
11:00 – 11:30	<i>Coffee break and poster viewing</i>
11:30- 13:00	Parallel Session A
13:00 – 14:00	<i>Lunch and poster viewing</i>

	Plenary Session 2: Living with FASD
	Session chair: Marco Fiore
14:00 – 14:30	[4] Adults living with FASD: Lee Harvey-Heath and Claire McFadden
	Personal Perspectives
14:30 – 15:00	[5] Keynote: Lana Popova, Canada
	Comorbidity associated with FASD
15:00 – 15:30	[6] Keynote: Margaret Murray, USA
	Thinking Globally and Acting Locally in Identifying, Treating, and Preventing FASD
15:30 – 15:45	<i>Coffee break and poster viewing</i>
15:45 – 17:15	Parallel Session B
17:30 to evening	Ira Chasnoff Film : Moment to Moment

Tuesday, September 13, 2016

Posters may be posted from 8:00 to 19:00. Please remove at end of day.

8:20 – 8:30	Opening
	Susan Fleisher
	Plenary Session 3: Recognizing the problem
	Session chair: Professor Barry Carpenter, CBE, PhD
8:30 – 9:00	[7] Keynote: Kate Fleming, UK
	A critical review of what epidemiological studies have taught us about prenatal alcohol risk
9:00 – 9:30	[8] Keynote: Paul Gard, UK
	Low-dose chronic prenatal ethanol exposure alters serum aminopeptidase activity in adolescent mice
9:30 – 9:50	[9] Katarzyna Dylag, Poland
	MRI findings amongst children with FASD
9:50 – 10:20	[10] Keynote: Piyadasa Kodituwakku, USA
	Comorbidity associated with FASD: a behavioural phenotype for FASD
10:20 – 10:40	[11] Nina Kaminen-Ahola, Finland
	Epigenetics of Fetal Alcohol Spectrum Disorders (epiFASD) project: Alcohol exposure during pregnancy alters DNA methylation and gene expression in human placenta
10:40 – 11:10	<i>Coffee break and poster viewing</i>

	Plenary Session 4: Understanding the phenotype
	Session chair: Martha Krijgsheld, Netherlands
11:10 – 11:30	[12] Adoptive/foster parents: Sandra and Martin Butcher
	Personal viewpoint: Lacking a post- diagnostic protocol for FASD in the UK parents struggle to fill that gap
11:30 – 11:50	[13] Manon Spruit, Germany
	Speech production disorders in children with FASD
11:50 – 12:10	[14] Kieran O'Malley, Ireland
	Clinical Phenotypes of of 30-35 children from Russia and Ukraine with NDPAE living in Ireland
12:10 – 12:30	[15] Professor Barry Carpenter, CBE, PhD
	Engaging Learners with FASD
12:30 – 13:30	<i>Lunch and poster viewing</i>
13:30 – 15:00	Parallel Session C
15:00 – 15:30	<i>Coffee break and poster viewing</i>
15:30 – 16:30	Plenary Session 5: 5-min talks—What's happening in my country?
	Session Chair: Penny Cook, UK
	[16] Romania: Teodora Ciolompea

	[17] Germany: Alison Frieling and Gisela Michalowski
	[18] Moldova: Dumitru Siscanu
	[19] Spain: Oscar Garcia Algar
	[20] Russia: Anait Marianian
	[21] Scotland: Maggie Watts
	[22] Israel: Yehuda Senecky
	[23] New Zealand: Kate Robertshaw
	[24] AFASAF, the young but active organization in Spain: Teresa Nuñez-Minguez, Montserrat Badia-Amate
	[25] South Africa: Leana Olivier
16:45 – 17:30	Business meeting; General Assembly of the Member Organizations
19:00 – 23:00	Gala dinner
	<i>Including presentation of poster prizes</i>

Wednesday, 14 September 2016

8:20 – 8:30

Opening
Leopold Curfs, Netherlands

Plenary Session 6: More than just biology

Session chair: Elena Varavikova, Russia

8:30 – 9:00

[26] Birth mothers: Samantha Marchant and Anne Russell

Personal experiences and stigma

9:00 – 9:20

[27] Kathy Mitchell USA

Stamp out Stigma: How shame and blame hinder FASD prevention

9:20 – 9:40

[28] Claire Coles

Prenatal alcohol exposure and transition to adulthood: Stress and resilience

9:40 – 10:00

[29] Gerjo Kok, Netherlands

How to make social change for prevention of FASD

10:00 – 10:30

Coffee break

Plenary Session 7: The Way Ahead

Session Chair: Thierry Maillard, France

10:30 – 11:00

[30] Elena Varavikova, Russia

Maternal ethanol consumption and FASD: A matter of health diplomacy

11:00 – 11:30	[31] Mariann Skar, Eurocare Preventing alcohol related harm to the unborn child at EU level
11:30	Announcement of Election Results: New Board for 2016 to 2018
11:45	Announcement of EUFASD 2018
11:55	Closing remarks
12:15	End

Parallel Sessions A Monday morning

A1 [32] Focus on prevention campaigns for Fetal Alcohol Spectrum Disorders

90-min workshop led by Gerjo Kok, Netherlands

A2 Supporting Adults with FASD

Session chair Bérénice Doray, France

[33] Anne Russell, Australia **FASD and employment**

[34] Alanna Mihic, Canada **Sexual health promotion by care-providers of youth with fetal alcohol spectrum disorder: practices, barriers, and facilitators**

[35] Carmela Pestell, Australia **FASD and juvenile justice in Australia**

[36] Emma Weissblatt, UK **Clinical assessment of children and adolescents with complex neurodevelopmental difficulties and confirmed prenatal exposure to alcohol in a secondary care setting: an integrated service model and neuropsychiatric outcomes**

A3 Advances in diagnosis and medical management

Session chair Magnus Landgren, Sweden

[37] Humberto Simões, Brazil **Auditory event-related evoked potential in schoolchildren exposed to alcohol during pregnancy: preliminary results**

[38] Eva Aring, Sweden **The 4-Digit Eye Diagnostic Code, a Tool for Eye Diagnostics in Fetal Alcohol Syndrome Disorders**

[39] Johanna M. H. Rau, Germany **Altered brain activity during response inhibition in female adults with FASD: a functional magnetic resonance imaging study**

[40] Michael Suttie, UK **A novel technique for the analysis of combined face-brain morphology and correlation with neurocognitive impairment in FASD**

[41] Pedro Coelho, Portugal **Pattern of Retinal Nerve Fiber Layer Thickness Loss in Fetal Alcohol Syndrome: A Spectral-Domain Optical Coherence Tomography Analysis**

A4 Social determinants

Session chair Inyang Takon, UK

[42] Maria Xavier, Portugal **Pregnant women's perceptions of information about alcohol use during pregnancy: a qualitative pilot study**

[43] Daniela Fiorentino, Italy **Risk categories of alcohol consumption in a general population of pregnant women**

Joanne Blake, UK **Documentation of maternal alcohol exposure during pregnancy and follow-up process for babies at risk of foetal alcohol syndrome**

Gisela Michalowski, Germany **First Results of a Pretherapeutic Group for Adults with FASD and Risk of Addiction**

A5 Biomarkers and Basic Research I

Session chair Magdalena Borkowska

Helen Howlett, UK **Prevalence survey of alcohol consumption at antenatal booking in pregnancy; comparing blood biomarker analysis to self-report**

Valentina Carito, Italy **Prenatal ethanol exposure: cognitive and physiological effects in the offspring**

Xavier Lieben Louis, Canada **Effect of docosahexaenoic acid (DHA) on DNA methylation in brain of rat fetuses prenatally exposed to alcohol**

Oscar Garcia Algar, Spain **Segmental hair analysis to assess effectiveness of single session motivational intervention to stop ethanol use during pregnancy**

Damien Bouvier, France **Biomarkers of Fetal Alcohol Syndrome in amniotic fluid: first results from rat model**

Parallel Sessions B Monday afternoon

B1 Intractable Insomnia and Iron Deficiency in Prenatal Alcohol Exposure (PAE)

90-min workshop led by Osman Ipsiroglu

B2 Prevention I

Session chair Patrizia Riscica, Italy

Fiona Crawford-Williams, Australia **A public health intervention to change knowledge, attitudes and behaviour regarding alcohol consumption in pregnancy: A pilot randomised controlled trial**

Stefania Bazzo, Italy **Using a visual questionnaire to investigate awareness and emotions of health professionals and pregnant women towards alcohol use and pregnancy. Findings from a comparative study in Northern Italy**

Tatiana Balachova, USA & Russia **Effects of FASD education brochures on women's knowledge, attitudes, and alcohol use: outcomes in a randomized controlled trial**

Nancy Poole, Canada **Preventing FASD in Canada: Closing the gaps between evidence and current practices**

Roger Zoorob, USA **FASD prevention strategies in the primary care setting: A comprehensive, interprofessional method for implementation**

B3 Reaching the Professionals

Session chair Neil Aiton, UK

Heather Jones, Australia **Developing FASD educational resources for justice professionals**

Jennifer Shields, Scotland **Professionals' confidence and knowledge of Foetal Alcohol Spectrum Disorder (FASD) within children's services in Scotland**

Jolanta Terlikowska, Poland **Project of training socio-therapeutic community centers educators working with children with FASD**

Gali Lackner, Israel **Medical students' knowledge about the damage to fetus due to in utero alcohol exposure: a cross sectional study**

Denis Lamblin, France **The French National Academy of Medicine declares FASD prevention as a great national cause**

B4 Adult Outcomes

Session chair Jan-Peter Siedentopf

Joanna Buckard, UK **Outcomes for Adults with FASD in the UK- what's their narrative? A Qualitative pilot study**

Emelie Gyllencreutz, Sweden **Ophthalmological findings in young adults with fetal alcohol syndrome disorders (FASD): a long-term follow-up study**

Raja Mukherjee, UK **Neurodevelopmental outcomes in individuals with heavy prenatal alcohol exposure and a FASD diagnosis, with and without exposure to neglect: A natural experiment in patients seen in a national FASD diagnostic clinic. Initial findings**

Jessica Wagner, Germany **Adults with Fetal Alcohol Spectrum Disorders: Health issues associated with a late FASD diagnosis**

Jenny Rangmar, Sweden **Childhood placement in out of home care in relation to psychosocial outcomes in adults with FASD**

B5 Helping our children grow I

Session chair Gro Lohaugen

Carolyn Blackburn, UK **I'm going to be a superhero**

James Fitzpatrick, Australia **The Lililwan* Project: Neurodevelopmental outcomes and Fetal Alcohol Spectrum Disorders (FASD) prevalence in remote Australian Aboriginal children**

Irina Volkova, Russia **Particularities of enviroing and personal alcohol consumption of bullying participants among Russian school-aged children**

Teresa Jadczyk -Szumiło, Poland **Therapy program for children with FASD and their families**

Deb Evensen, USA **Parents and teachers together can change the negative stigma of FASD and build a positive circle of support**

Katarzyna Dyląg, Poland **Incontinence problems in children with FASD: a Polish study**

Parallel Sessions C Tuesday afternoon

C1 How to get your research published!

90-min workshop led by Diane Black.

This is a unique opportunity for non-anglophone researchers to get training by an experienced teacher of academic writing courses. Includes 3 hours of coaching by e-mail and Skype. Gratis and limited to 12 participants. For more information or to sign up, mail to d.m.black@rug.nl.

C2 Prevention II

Session chair Joanna Buckard, UK

Lori Vitale Cox, Canada **Reducing the prevalence of FASD primary and secondary disabilities using a community based approach to FASD prevention in an Atlantic First Nation**

Stefania Bazzo, Italy **An international communication campaign to raise public awareness of Fetal Alcohol Spectrum Disorders. A feedback from participant organizations**

Sandra Gonzalez, USA **FASD prevention in the U.S.: An innovative approach to systems change**

Sylvia Roozen, Netherlands **Understanding Fetal Alcohol Spectrum Disorders (FASD) and maternal alcohol consumption during pregnancy**

James Fitzpatrick, Australia **'Making FASD history' in Australia: Successful evidence-based, population-level programs of FASD Prevention, Diagnosis and Treatment in remote Australian communities**

C3 Helping our children grow II

Session chair Ges Gregory, UK

Sharon Dawe, Australia **Interventions for children with Fetal Alcohol Spectrum Disorders: where to next?**

Claire Coles, USA **Improving neurocognition and behavior in children FASD: GoFAR, a metacognitive intervention**

Valdemar Landgren, Sweden **Physical and intellectual development as well as psychiatric symptoms in young adults diagnosed with Fetal Alcohol Syndrome as children**

Ana Hanlon-Dearman, Canada **Supporting Attachment in Preschool Children with FASD: A Descriptive Study Using the Circle of Security Home Visiting Program**

Jane Thistlethwaite, New Zealand **Reaching and Teaching Learners with FASD, Implementing the Engagement for Learning Programme – A New Zealand Case Study**

Raja Mukherjee, UK **Social communicatory deficits, autistic spectrum disorder and other neurodevelopmental consequences across the lifespan associated with prenatal alcohol exposure and FASD: Findings from the UK FASD National Specialist Behaviour Management Clinic**

C4 Biomarkers and Basic Research II

Session chair Katarzyna Dyląg, Poland

Oscar Garcia Algar, Spain **Fetal Alcohol Exposure:relationship between ethyl glucoronide and maternal hair during pregnancy**

Cheryl McQuire, UK **Early identification of risk for Fetal Alcohol Spectrum Disorders: a systematic review of biomarkers of prenatal alcohol exposure**

Scott Parnell, USA **Synergistic actions of ethanol and synthetic cannabinoids during early gestation in a mouse model: Teratogenesis and potential mechanisms**

Lesley Smith, UK **Exploration of alcohol consumption, antioxidants and fetal growth: Secondary Analysis of the Avon Longitudinal Study of Parents and Children (ALSPAC)**

C5 Surveillance and screening

Session chair Carolyn Blackburn, UK

Katarzyna Okulicz-Kozaryn, Poland **FASD in biological and non-biological families in Poland**

Peter Hammond, UK **Introducing computerised 3D face screening to the FASD clinic**

Sarah Brown, Scotland **The development of the Prenatal Alcohol Investigation and Resource Service (PAIRS) in NHS Ayrshire & Arran**

Bérénice Doray, France **Reunion Island, First French region to benefit from a specific Resource Center dedicated to the prevention, diagnosis, support and care of the persons afflicted by FASD**

Christopher Steer, Scotland **The incidence of Fetal Alcohol Syndrome in Scotland. An enhanced passive surveillance study**

List of Posters

Monday			
M1	Ges	Gregory	Identifying Children who are at Risk of Fetal Alcohol Spectrum Disorders in a Community Paediatric Setting.
M2	E Sharon	Brintnell	Expressing the Functional Profile of Adults Assessed for FASD
M3	Kelly D	Coons	"Well in Europe they drink all the time": Ontario health care students' attitudes regarding alcohol use during pregnancy
M4	Sharon	Dawe	Establishing an FASD assessment and diagnostic clinic: who we saw and caregiver's views
M5	Vicki	Russell	FASD and problem intractability
M6	Helen	Howlett	Alcohol screening in pregnancy: an opportunity for support and education?
M7	Lesley	Smith	Exploration of Dietary Patterns, Micronutrient Intakes and Heavy Drinking During Pregnancy: Secondary Analysis of the Avon Longitudinal Study of Parents and Children (ALSPAC)
M8	Laura Charlotte	Harrison Willis	Fetal Alcohol Spectrum Disorder: The Difficulties of Identification and Diagnosis of Adolescents and Adults with FASD
M9	Anuradha	Shetye	Fetal Alcohol Spectrum Disorder and external / middle ear problems - A retrospective audit to establish working together
M10	Gisela	Michalowski	First Results of a Pretherapeutic Group for Adults with FASD and Risk of Addiction
M11	Maria	Xavier	Children prenatally exposed to alcohol -- a case study in north of Portugal
M12	Stefania	Bazzo	Evaluation of a multilevel and integrated program to raise awareness of the risks of prenatal exposure to alcohol in Italy
M13	Elena	Molchanova	Raising a child with FASD--experience of Russian parents

M14	Marlene	de Vries	A case study from south Africa of a woman with multiple children with Fetal Alcohol Spectrum Disorders: alcohol use, social, and childbearing history
M15	Martha	Krijgsheld	The Fetal Alcohol Syndrome Foundation of the Netherlands
M16	Osman	Ipsiroglu	Prenatal Alcohol Exposure Alters Sleep Patterns in Young Rats

Tuesday

T1	Anna-Susan	Marais	A Follow-up Study of the Epidemiology of Fetal Alcohol Spectrum Disorders in a Community in South Africa
T2	Belinda	Joubert	The role of fathers in pregnancies involving high-risk drinking mothers
T3	Carisa	Siemens	Life in four rural communities in South-Africa having the highest ever recorded prevalence of FASD
T4	Alison	Frieling	Living Accommodation for People Affected by FASD
T5	Alison	Frieling	FASD Deutschland e.V.--How our organisation works
T6	Alan	Price	Compounding effects of fetal alcohol spectrum disorders and early childhood trauma: A systematic review
T7	Anne	Koponen	Alcohol and/or substance abuse during pregnancy: effects on maternal welfare and developmental outcome of children -- a research plan
T8	Raja	Mukherjee	Exploring the experiences of birth mothers whose children have been diagnosed with Fetal Alcohol Spectrum Disorders: a Qualitative study.
T9	Raja	Mukherjee	Neurodevelopmental Disorder Associated with Prenatal Exposure to Alcohol (ND-PAE): A comparison of criteria against IOM and 4 Digit classification systems.

T10	Anait	Marianian	The problem of drinking alcohol during pregnancy and the health of newborns and infants
T11	Giovanna	Coriale	The value of a comprehensive neuropsychological evaluation on treatment outcomes of a child with FASD: single case report
T12	Yadava	Campbell	The role of educational psychologists (EP) in supporting early years (EY) and primary school children with fetal (foetal) alcohol spectrum disorders (FASD) in the UK
T13	Laia	Martinez Ribot	Following a group of foster families until they get the diagnosis of Fetal Alcohol Syndrome Disorder
T14	Nuria	Gómez Barros	Psychiatric disorders in a sample of Russian adopted children with Fetal Alcohol Spectrum Disorder
T15	Magdalena	Borkowska	Case study of a child diagnosed with FASD-- educational and upbringing goals
T16	Elizabeth	Henderson	Patterns and Prevalence of Alcohol Consumption In Pregnancy Using Infant Biomarkers
